#####

### About the Royal Society of Medicine

The Royal Society of Medicine is an independent, apolitical organisation, founded 200 years ago. They are one of the largest providers of continuing medical education in the UK and provide accredited courses for continuing professional development, which is so vital in allowing doctors, dentists, veterinary surgeons and other healthcare professionals their continuing freedom to practise.

### About 3G Doctor Limited

3G Doctor is a registered Doctor led service that is launching in the UK to provide adults (aged 18+) with affordable, private round the clock 3G Video Call access to their medical information and the advice of highly trained General Medical Council registered Primary Care Doctors. These carers are waiting to answer queries, diagnose medical problems and recommend treatments. The service is an important development in the mobile pervasive future of healthcare and has been created to help meet the evolving need for remote access to the regulated advice of qualified and registered Doctors.
